**Attachments:** Health-Effects-Documents-for-Perfluorooctanoic-.pdf

Dear Ms Donohue,

We have read the report Health Effects Document for PFOA (Perfluorooctanoic Acid) (2014, attached) with great interest and we would like to use the cancer slope factor in our calculations of life cycle assessment characterization factors for this substance. The document is stated to be a draft and that it should not be cited or quoted. However, we cannot find a final version. Therefore we would like to ask for your permission to quote the report given that we clearly state in our references that the report is a draft.

We look forward to your reply,

Best regards

Hanna Holmquist and Sandra Roos
